Learning Objectives

Marilyn Hravnak RN, PhD, ACNP-BC, FAAN, FCCM

Professor of Acute and Tertiary Care
School of Nursing
University of Pittsburgh

Key Note – The Nurse Leaders Role in Optimizing the Practice Environment

Learning objectives:

1. Evaluate the components of patient care problems that lend themselves to nurses saving lives, specifically failure to rescue
2. Assess the development and implementation of several examples of nurse-led multi-professional physiologic research in acute and critical care
3. Identify the components of team composition leading to successful multi-professional physiologic research in acute and critical care.
4. Discuss the key characteristics of nurses who are positioned to be competitively successful principal investigators.

The State of Nursing Research in South Florida

Ora Strickland, Ph.D., D.Sc.(Hon.), R.N.

Dean, College of Nursing and Health Sciences
Florida International University

Including the perspectives of the following panelists:

Shakira Henderson MS, MPH, MSN, RNC-NIC, IBCLC

Nurse Scientist
Baptist Health South Florida

Julie Barroso, PhD, ANP-BC, RN, FAAN

Professor and Associate Dean, Doctoral Programs
University of Miami School of Nursing & Health Sciences

Candice Hickman, MSN, RN

Chair, Research Practice Council
Holy Cross Hospital

Linda S. Weglicki, PhD, RN, MSN

Associate Dean for Nursing Research & Scholarship
Florida Atlantic University Christine E. Lynn College of Nursing

Learning objectives:

Attendees will gain an understanding of healthcare trends that influence research at the bedside, will be exposed to themes of research at the bedside, and will better understand the area's nursing research strengths and successes, and opportunities to build upon and leverage the nursing research work being performed in South Florida.

Learning Objectives (continued)

Maria A. Suarez, MSN, ARNP, ACNP-BC

Assistant Vice President, Advanced Clinical Practice
Baptist Health South Florida

Shared Governance for Advanced Clinical Practice

Learning objectives:

1. Define Shared Governance as a leadership model in healthcare
2. Describe the challenges and barriers of implementing a shared governance leadership model
3. Describe the benefits of shared governance for advanced practice

Elizabeth L. Smith, DNP, RN

Chief Nursing Officer
UM Sylvester Comprehensive Cancer Center

Transformational Leadership at the Bedside: Impact of Teamwork and Share Governance on Quality of Care

Learning objectives:

1. Importance of teamwork in transformational leadership at the bedside
2. The Impact of share governance has on transformational leadership at the bedside
3. How transformational leadership impacts quality of care at the bedside.

Eve Butler, RN, PhD

Research Scientist
Baptist Health South Florida

Andrea (Andy) Prentiss MSN, ARNP, CNS

Research Scientist
Baptist Health South Florida

Mentoring for success: Collaboration in a hospital program of research

Learning objectives:

1. Discuss the vision and importance for nursing research
2. Describe the research process from idea to dissemination
3. Evaluate steps needed for sustaining research .

Learning Objectives (continued)

Pat Messmer, PHD, RN, FAAN

Chair, Nurses Charitable Trust
Miami Dade College

Nursing Research from the “Womb to the Tomb”: Creating a Culture of Nursing Research and Scholarship

Learning objectives:

1. Discuss Creating a Culture of Nursing Research and Scholarship
2. Discuss Past, Present and Future Nursing Research and Scholarly Studies
3. Discuss Current Trends, Challenges and Recommendations for Implementing and Disseminating Nursing Research into Practice and Academia

Leanna M. Neshkoff, BSN, CCRN

Nurse Manager, Surgical Intensive Care Unit
Memorial Regional Hospital

Don’t Let Your Patients Go Crazy! The Implementation of Pain, Agitation and Delirium Guidelines as Evidence Based Practice in the ICU

Learning objectives:

1. Understand the need for optimal management of pain, agitation, and delirium in the ICU- how LOS and cost may be reduced and patient safety enhanced through the use of evidence based tools for assessment
2. Understand why the use of evidence based assessment scales is important
3. Discuss the challenges encountered in changing practice at the bedside as well as at the healthcare system level
4. Discuss current compliance with the guidelines as implemented
5. Discuss opportunities for the implementation of early mobilization for delirium prevention

Taren Ruggiero, MSN, RN

Chief Nursing Officer
Holy Cross Hospital

Implementation of a Transitional Care Program to Prevent Hospital Readmissions

Upon completion of this presentation, the learner will be able to...

1. Verbalize three reasons hospital readmissions occur.
2. Verbalize three evidence-based interventions shown to reduce readmission rates.
3. Discuss how a transitional care program can be successfully implemented in an acute care hospital.

Learning Objectives (continued)

Jackie Gonzalez, DNP, ARNP, MBA, NEA-BC, FAAN
Chief Nursing Officer
Miami Children's Hospital

Humpty Dumpty Falls™; Preventing falls, enhancing safety Nursing innovation and evidence in reducing pediatric falls across the globe

At the end of this session, each participant will be able to:

1. Identify steps using evidence-based practice and innovation in identifying and solving every day nursing practice problems.
2. Utilize best practices learned to develop new nursing knowledge in the participant's own practice setting.
3. Recognize and transform practice problems into actionable interventions that have the potential to enhance patient care.
